Constructed Wetland Association Annual Conference
"Treatment Wetlands: Solutions for Water and Landscape Management"
12th and 13th May 2026
Glasgow, UK

CALL FOR SPEAKERS – DEADLINE 5th March

We are pleased to invite you to contribute to our upcoming Annual Conference, taking place 12th & 13th May in Glasgow. We encourage researchers, practitioners, and project teams to share their latest insights and experiences through peer-reviewed talks on the following themes:

- Overcoming challenges and enabling success
- Turning policy into practice
- Achieving multiple benefits with constructed wetlands
- New approaches in wetland design and implementation
- Wetlands for nutrient control in both rural and urban settings
- Farm-based wetlands and catchment-scale solutions
- Resource recovery and circular economy opportunities
- Learning from long-term monitoring of full-scale systems

We are also open to other topics that help advance the understanding or practical use of constructed wetlands.

We welcome data-driven contributions—please note that commercial presentations will not be considered. If you have research findings or case studies to share, please submit your abstract to events@constructedwetland.co.uk with "ABSTRACT" in the subject line.

We particularly welcome submissions from those new to wetlands (< 5 years of experience), regardless of age. Contributions from New Wetland Professionals will be considered for flash presentations (5 minutes) *or* posters. Prizes will be awarded in both categories.

Please include the following information:
- Speaker(s) name, job title and organisation.
- Title of your contribution
- A brief summary of the scope of your presentation and key learning points (150 words).
- Your preference for a poster or oral presentation
- Whether you are a New Wetland Professional

DEADLINE 5th March

For more information and registration details please visit our website at:
